

DESIGN YOUR *OWN* TILES

www.uniquetiles.com

4 Manor Buildings, New Street, North Perrott, Crewkerne, Somerset, TA18 7ST, United Kingdom

Unique Tiles

We work with architects, designers, artists and homeowners to design and make decorative tiles, murals, panels and facades that are truly one of a kind, not mass produced.

How We Work

It is essential for us to fully understand your brief: your vision, the space and the feeling you want to create. Then we work with you on a design that will transform the room.

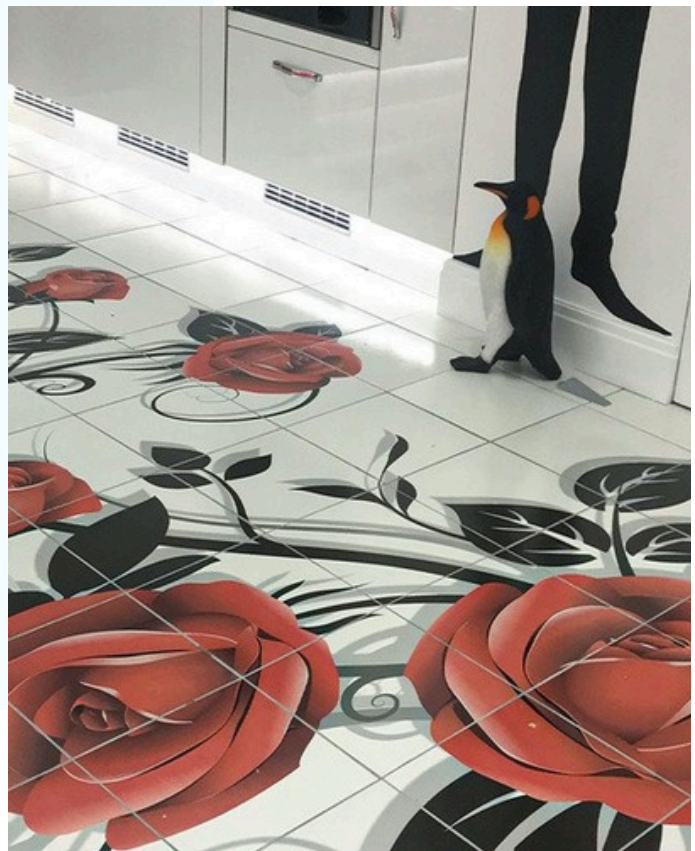

Creating The **WOW** Factor.

Have you ever wondered how you could make your home different and create the WOW factor? Tiles are a beautiful canvas for art, colour, photos and your own designs.

Tile Samples.

Before placing an order, we offer a sample of your own design on a 10 x 10 cm tile (£12 all inc) and if you end up placing an order, the samples you purchase will be fully refunded. Our customers around the world are happy with our tiles and our service.

Premium Tiles

Our high-resolution image transfer is not dye sublimation or cheap UV printing.

It is a hand-crafted, kiln-fired process that gives a sharp, clear and durable image.

Your design is fired at 900 °C (1650 °F) into the glaze of porcelain or ceramic tiles, so the image becomes part of the tile.

Our tiles are resistant to:

- Frost: porcelain tiles will not crack in extreme climates
- UV light: guaranteed not to fade for 50 years
- Graffiti: it can be removed
- Scratching: under normal use
- Wear: suitable for high-traffic areas
- Chemicals: will not harm the surface or the image
- Heat: up to 700 °C (1292 °F)

Prices from £290 per m² / £26.94 per sq ft + VAT
